// ABOUT US

### Welcome to Saudi Heart Association

The Saudi National Cardiopulmonary Resuscitation Committee (NCPHR) since 1984 till now is working on dissemination of the resuscitation science throughout the kingdom of Saudi Arabia. It worked through building up the human capabilities for training the CPR courses and accreditation of training sites (centers) at governmental and private level. Nowadays, the committee continues its commitment to the resuscitation science. How? By, assuring the quality in presenting this science. The science that deals with human life (the most worthy life on the universe).

In order to do that the committee developed a web portal to automate all the process needed to keep on the quality and to maintain the continuous development of the science to serve the humanity worldwide. We believe that the web portal will be flexible in use by all users and controlling all the manual process with an easy tracing to all users profile. All users can enjoy our new videos at the home page. All trainees and instructors can enjoy the up to date science through log in to their accounts. We will soon launch a community and instructors blog to be more close and realistic. We are happy to be part of this success through your valuable comments.

The screenshot shows a mobile browser interface for the Saudi Heart Association website (shacpr.org.sa). The top navigation menu includes: Home, Courses, Hybrid Courses, Training Centers, About Us, Register (highlighted with a red box), and Login. Below the menu is a banner with three images and buttons: 'Become Provider', 'Become Instructor', and 'Become Training Center'. The main content area features the heading 'Welcome to Saudi Heart Association' and a paragraph of text about the organization's mission and the website's purpose.
